RED GUM COLUMNS

ABSOLUTELY THE BEST SUBSTITUTE FOR POPLAR.

WE are now preparing to place these Columns on the market, but on account of orders already booked will probably not be able to make many shipments of any consequence before May 25, 1903. Orders, however, placed with us at once will receive next best attention, and customers will be thoroughly protected by the following

POSITIVE GUARANTEE:

We claim that our Red Gum Columns and Newels are manufactured from the best quality southern timber, that they are hand turned and sanded and absolutely first-class in every respect. We also claim that they will hold their shape, hold paint, and last longer than Poplar under all conditions. We further agree to replace, free of charge, any of our Red Gum Columns or Newels not exactly as represented.

Respectfully,

THE PEASE CO.

NET PRICES
No. 10 or 1721 COLUMNS.

		Each.
4 in. x	8 ft.	\$0.50
	9 "	.55
	10 "	.60

Prices include Turned and Square Caps and Bases.

No. 111.

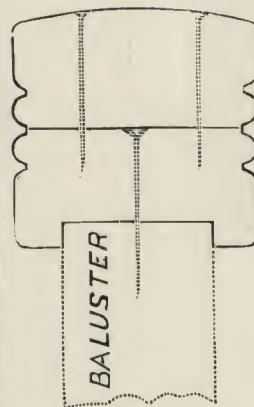

No. 112.

We sell perhaps more Built-up Colonial Columns than any of our competitors, and the reason of this is that we use Tennessee Yellow Poplar of best quality and full thickness. We use water-proof glue exclusively and clamp all joints 24 hours before turning. All Columns are primed with one coat white lead and carefully crated to avoid damage in transit.

Prices include turned and square Caps and Bases.

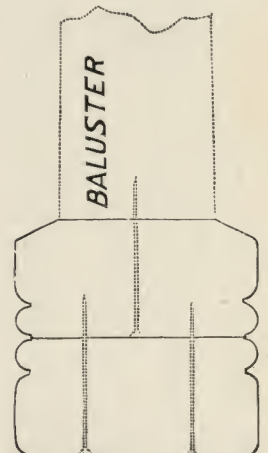

Diameter of Shaft at Bottom.	No. 111	No. 112 Columns 30 percent more than No. 111. No extra charge for turning No. 111 Columns for Pease Composition Capitals, except for 11 and 12 in. Columns, on which we make an extra charge of 10 percent.

COLUMBIA READY ROOFING.

Thoroughly durable, adapted to flat or steep roofs; not affected by temperature, steam or acids; easily laid - no special tools required (does not impart taste to rain water). Waterproof and practically fireproof. The cheapest and best-appearing roof for residences, barns, factories, sheds, etc.

Our Two- and Three-Ply Roofing is 32 inches wide, and put up in rolls each containing 108 square feet, and about 40 feet 6 inches in length, allowing two inches for lay. Every roll will cover 100 square feet, or 10 x 10, and each roll is wrapped and labeled with directions for putting on.

POSITIVELY THE BEST CHEAP ROOFING.
